PROFESSIONAL SERVICES AGREEMENT WITH WOODWORTH & HAGLUND AMENDMENT NO. 2

SUMMARY:

In August 2007, the Board approved a professional services agreement with Woodworth & Haglund (Carl Haglund), who agreed to provide support and counsel to West Basin staff for the amount of \$25,000, to be paid at an hourly rate of \$250.00. Since the original agreement was executed, West Basin amended this agreement in February 2008 to increase the total contract amount to \$50,000, of which, there is a remaining balance of \$17,514.

Over the past year, Mr. Haglund's assistance has reinforced his value to West Basin, particularly in enhancing the agency's image through customer agency outreach and high-profile events. Specifically, Mr. Haglund conducted the confidential customer agency survey that provided valuable input to the Board's strategic planning process, conceived and implemented key elements of the 60th Anniversary and Facility Re-naming Ceremony, provided advice in the procurement process for West Basin's ocean-water desalination public education and outreach consulting services, provided input on the possible West Basin name and logo change, helped with the Water Reliability 2020 research and outreach plan, and has further provided strategic counsel related to West Basin's pursuit of a full-scale ocean-water desalination facility.

On June 30, 2008, the contract for professional services, between West Basin and Woodworth & Haglund expired. At this time, staff recommends that West Basin amend the contract for professional services to include an additional \$25,000 for a total contract amount not-to-exceed \$75,000 and extend the term of the contract to expire on June 30, 2009.

Carl Haglund has been a long-time consultant and advisor to West Basin. His guidance, influence and understanding of issues in our service area have been invaluable. This amendment will ensure that the General Manager and the Public & Government Affairs Department will be able to continue to receive these services and further counsel from Mr. Haglund. The scope of this amended agreement shall include:

- Water Reliability 2020 strategic counsel and finding and gaining access to influential community, business and other key leaders for briefings;

- Assistance in obtaining Huell Howser for a Water Reliability 2020 and West Basin video and DVD;
- Continued expert advice in the execution of a public outreach plan for Water Reliability 2020 and West Basin, in general;
- Expert advice on crisis communications, if needed; and
- Other assistance with Public & Governmental Affairs Department initiatives and programs as required.

All services will be rendered on a time and materials (as needed) basis.
