## CONSENT CALENDAR

### RECYCLED WATER CUSTOMER DEVELOPMENT PROJECT UPDATE

#### SUMMARY:

This Board memorandum provides the monthly update on the progress of West Basin's pursuit of recycled water customers.

Cabrillo Elementary School (10 AFY): The school irrigation system has been connected to the recycled water system. The final cross-connection test was conducted by the Department of Public Health on December 23, 2008.

Redondo Beach Median Expansion (5 AFY): The median irrigation system on Pacific Coast Highway and Catalina Avenue has been connected to the recycled water system. The expansion was approved for connection by the Department of Public Health on January 2.

Raytheon (84 AFY): The irrigation system has been connected to the recycled water system. The final cross-connection test was conducted on January 7 by the Department of Public Health.

Kobata Nursery (20 AFY): This site has been connected to the recycled water system. The site retrofit conversion was completed and approved for connection by the Department of Public Health on January 15.

Jim Thorpe Park (21 AFY): The City of Hawthorne has started the conversion of the park irrigation system to use recycled water. It is anticipated that this site will be connected to the recycled water system in March 2009.

Imperial Avenue (43 AFY): Staff is working with the City of El Segundo to connect three sites to the recycled water system. The Imperial Avenue dog park, Memory Lane green area, and the median on Imperial Highway and Main Street will be converted to use recycled water for irrigation. It is anticipated that the sites will be connected to the recycled water system in July of 2009.

Equinix (300 AFY): Equinix is a data center that is being built in the City of El Segundo. The center will use recycled water for cooling purposes. The project is planned to be built in three phases. The first phase should be completed in 2009 and will use approximately 100 acre-feet of recycled water. The two remaining phases are planned to be completed in 2010.

STRATEGIC BUSINESS PLAN IMPLEMENTATION:

Goal 1, Reliability – Maintain a level of local water reliability that supports the regional economy, our community and customer agency needs.

COMMITMENT STATEMENT:

Water Reliability – West Basin is committed to innovative planning and investments to provide water supply reliability and drought protection.

FISCAL IMPACTS:

Funds for this project are included in the Fiscal Year 2008-09 Capital Improvement Program Budget.

ENVIRONMENTAL COMPLIANCE:

Not applicable.

COMMITTEE STATUS:

This item was reviewed by the Water Resources Committee on January 15, 2009 and agendaized to the January 26, 2009 Board meeting Consent Calendar.

RECOMMENDED MOTION:

This item is for information only.

LIST OF EXHIBITS:

None.
