## INFORMATION CALENDAR

### WATER QUALITY FUNDING INITIATIVE – COMMUNITY TASK FORCE

#### SUMMARY:

The Board of Supervisors (Board) of Los Angeles County voted to move forward to consider a fee proposal and Proposition 218 ballot measure for funding water quality improvements and services related to urban runoff pollution. The Los Angeles County Flood Control District (District) is leading the initiative for the Board. As part of this initiative, a Community Task Force is being established and will act as an advisory body to the Board, staff of the County of Los Angeles and the District.

The Task Force will work to formulate a stormwater property-related fee proposal for submission to the property owners in the District. Members of the Task Force will consist of influential leaders who are trusted and respected for their opinions and actions, and have a strong interest in improving water quality. The members will review data and concepts from various advisory groups and stakeholders to develop recommendations that will lead to successful implementation of the fee. Director Gloria Gray is being considered for appointment to the Community Advisory Task Force.
