Great tours start with great communications

As North America's leading provider of Wireless Tour Guide Solutions, Baycom can help make your tour a success. Whether your tour covers a large manufacturing facility or a quiet museum, the Baycom Tour Pack systems ensures your visitors hear every word clearly and easily. Here's why customers choose Baycom for their tour guide solutions:

Trusted: For over 50 years, Baycom has been serving customers with wireless communications. As North America's leading provider of wireless Tour Guide solutions, we offer the most complete line of technologies from Sennheiser (including System 2020 and System 1030) and are privileged to have some of the world's most recognized companies as customers.

Experts: Our tour guide experts have helped numerous customers in a variety of facilities and sites with successful public, corporate and V.I.P. tours, as well as employee training and conferences. We're here to help you choose the best solution for your needs.

Fast: Need a complete system tomorrow for an executive visit? Baycom has the largest ready-to-ship inventory for next day rental or purchase and we're experts in supporting last minute tours. All systems ship ready to use out-of-the-box. Our experienced staff will eliminate the stress associated with your event.

Proven: We provide tour systems to support 10 to 1000 visitors and know what it takes to pull together a great tour. We provide the most reliable technologies available today and offer 24x7 expert support via the phone or web. Our team is even available to provide expert on-site support and training if needed.

How a wireless Tour Guide solution works.

<p>1</p>	<p>2</p>	<p>3</p>	<p>4</p>
<p>Your system ships ready in a convenient protective case with 20 headsets and one handheld mic. The case also serves as the charger.</p>	<p>Each person on the tour wears the comfortable, lightweight wireless headsets that provide crystal clear audio even in noisy facilities.</p>	<p>Your tour guide presenter uses a durable transmitter with hands-free headset mic to communicate with your guests.</p>	<p>Your tour is ready to go! The system can support up to 500 users and can be used without re-charging for up to 8 hours.</p>

Not sure if your organization needs a wireless tour guide solution? Here are the top 5 reasons from our customers:

- 1. Communications** - If you have ever been on a tour where you couldn't hear the presenter, you know that it's difficult to stay engaged. It sounds simple but one of the top reasons companies select a wireless tour guide solution is to make sure visitors have the best tour experience and clearly hear important information.
- 2. Image** - A high quality tour guide solution helps create a professional image and helps associates your company with quality, innovation and care.
- 3. Safety** - Safety is an important goal in any facility and having uninterrupted communications will ensure your visitors hear important instructions and stay with the group.
- 4. Efficiency** - With ordinary tours, facilitators are often limited to smaller groups where they have to yell to be heard. With a wireless tour solution, you can support larger tours from 10 to 1000 and never strain your voice.
- 5. Simple** - Tour guide solutions are incredibly easy to deploy and use. From the time you open the box, you can be up and running within minutes and see beneficial results immediately.
