Inglewood

2009

May 12, 2010

Leighanne Kirk
Water Resources Planner
West Basin Municipal Water District
17140 South Avalon Boulevard, Suite 210
Carson, CA 90746

Dear Leighanne:

This letter is to request reimbursement for the remaining balance of funds from the Zero-Runoff Street Median Water Conservation Program. West Basin Municipal Water District awarded the City of Inglewood grant funds of \$12,200 for the Hardy Slope Renovation/Retrofit Project. Per the terms of the contract, the City received 50% (\$6,100) of the funding in August 2009 after the grant application was approved.

The project was completed in February 2010. However, because of unforeseen expenditures related to the project, the City spent a total of \$31,771.95 (please see attached documents). In the grant application, it states "Up to 50% of the costs may be awarded, but no more than \$15,000 per applicant." Since the City was awarded \$12,200, is it possible to obtain additional funds (not to exceed the \$15,000) after the original agreement has been approved?

Please feel free to contact me at 310.412.5623, should you need additional information. Thanks for your consideration.

Very truly yours,

Rita Gardner

Park Administration Superintendent.
