

**Exhibit "A"**

**NRG Recycled and Potable Water Conveyance Pipelines  
Proposal and Interview Results**

Base on these evaluations, Staff recommends that a contract award be presented to AECOM for the design of the NRG pipelines. AECOM has designed pipelines; and performed geotechnical and environmental work in the City of El Segundo in the proposed alignment for this project. Their project experience and project team was superior to every other consulting firm. Their core project team are all within the same office.
