WATER RECYCLING FACILITY SCHOOL TOURS
El Segundo

Program eligibility:
The Board of Directors of West Basin Municipal Water District (West Basin) are pleased to provide free Water Recycling Facility School Tours to 3rd-12th grade students attending public and private schools in the West Basin service area. West Basin will also provide a complimentary school bus for this field trip program. To confirm your school’s eligibility, visit http://www.westbasin.org/sites/default/files/documents/school-eligibility-for-free-water-education-programs.pdf.

Program description:
This program at the Edward C. Little Water Recycling Facility includes a lively presentation inside the Water Education Center designed to increase your students’ awareness of the California water supply and the water cycle, along with practical ideas regarding water conservation and recycling. After the presentation, students are given a tour of our working Water Recycling Facility, bringing to life the lessons they learned during the presentation.

Students then depart to the Manhattan Beach Pier, where they will have approximately half an hour to eat their lunches. Students may eat their lunch while sitting on the pier steps or the available benches. However, you may also bring picnic blankets or tarps for your students to sit on. After lunch, the teachers and students walk to the end of the pier to the Roundhouse Aquarium for a one-hour water education program and marine animal touch tank experience.

West Basin provides:
- All program fees
- A complimentary Pacific Coachways school bus

You must provide:
- 1 chaperone per 10 students
- Sack lunches for students
- Signed student photo waiver and liability release forms and rosters of all participating students and adults. These documents will serve as the admission tickets to the water recycling facility and be used for roll call should an emergency evacuation be required.

Participant numbers:
For each field trip, the complimentary school bus can accommodate the following number of people sitting three individuals per bench:

<table>
<thead>
<tr>
<th>Grade Level</th>
<th>Maximum Capacity</th>
</tr>
</thead>
<tbody>
<tr>
<td>3rd-5th grade</td>
<td>76 people maximum including chaperones</td>
</tr>
<tr>
<td>6th-12th grade</td>
<td>56 people maximum including chaperones</td>
</tr>
</tbody>
</table>

BOARD OF DIRECTORS

Gloria D. Gray
President

Harold C. Williams
Vice President

Carol W. Kwan
Treasurer

Donald L. Dear
Secretary

Scott Houston
Immediate Past President

GENERAL MANAGER: Patrick Sheilds
Students must be divided into two groups with accompanying chaperones. Only one complimentary school bus is provided per field trip. If your group number exceeds the maximum capacity of the school bus by a few students or chaperones, you are responsible for arranging your own transportation of those additional participants.

West Basin can provide multiple field trip dates to accommodate a full grade level from one school. Please coordinate your field trip planning efforts with other grade level chairpersons and limit this field trip opportunity to only one grade level per school.

Keep in mind that West Basin has other programs to serve other grade levels. For more information, visit https://www.westbasin.org/community/education.

Sample Water Recycling Facility Center field trip itinerary:

8:15 Bus pick up at your school

8:45 Bus arrival at Edward C. Little Water Recycling Facility
