### **WEST BASIN OFFERS FREE LUNCH & LEARN CLASSES**

*Learn about local water issues over a lunch hosted by the District*

**CARSON, Calif.** – West Basin Municipal Water District will offer a series of free Lunch & Learn classes, providing members of the community the chance to learn about local water issues during an informative lunch hosted by West Basin.

“West Basin is pleased to kick off another season of its Lunch & Learn programming this year,” said West Basin Board President Scott Houston. “These free classes are designed to inform our residents about our region’s water supply, and West Basin’s leadership in the areas of recycled water, conservation and the study of ocean water desalination. The Lunch & Learn series of classes further emphasize our District’s commitment to education and community engagement as we work to provide safe, reliable water to the communities we serve.”

The 2019 event series will be hosted on the second Friday of each month from February through September at the District’s headquarters in Carson, Calif.

Each class will be devoted to one of four topics: imported water, water recycling, water use efficiency and water desalination. Attendees will have the opportunity to learn how the District is securing quality water supplies for our future, as well as the various other free resources that are available to the members of the communities the District serves.

The first class will take place on Friday, Feb. 8 at 12:30 p.m. at the West Basin Donald L. Dear Building located at 17140 S. Avalon Blvd., Carson, CA 90746. Free parking is provided onsite. Space is limited; RSVPs are required and accepted on a first come, first served basis.

For the full list of dates, topic details and to RSVP for an upcoming Lunch & Learn class, please visit [www.westbasin.org/lunchandlearn](http://www.westbasin.org/lunchandlearn). Registration is required for all upcoming programs and events. Questions or requests for additional information can be emailed to [info@westbasin.org](mailto:info@westbasin.org).

###

*West Basin Municipal Water District (West Basin) is a wholesale water agency that provides imported drinking water to nearly one million people in 17 cities and unincorporated areas in Los Angeles County. West Basin is an industry leader in water conservation, recycling and education. The District is implementing a Water Reliability program to reduce the agency’s dependence on imported water and develop local, drought-proof water supplies. This includes water conservation, recycling, groundwater desalting and the exploration of ocean water desalination. Visit [www.westbasin.org](http://www.westbasin.org) to learn more.*
